1,3" OLED-Display

Standard in flight case

Technical data

Procedure	Directly heated vaporizing fog machine
Power	90-265 V~, 50-60 Hz, 330 W (PowerCON TRUE1)
Warm-up time	5 seconds
Tank capacity	2 liter
Fluid consumption	The canister lasts from 6.5 hours at maximum output up to approx. 35 hours at minimum settings
Haze output	controllable from 1–100 %
Interface	5-pin XLR In/Out
Supported Protocols	DMX512, RDM, JT Remote
Control	1.3" OLED display and membrane keypad
Integrated fan	Radial fan, 250 m ³ /h, 1–100 % speed controllable
DMX-Footprint	2 channels (fluid pump, fan speed)
Vaporizer	quick-change via service hatch
Supported fluid type	base*B
Dimensions (L x W x H)	Flightcase approx. 320 x 240 x 345 mm
Weight	11 kg
